Hub "Vostochny" - travel from the cities of Fergana Valley with profit!

2021 29 December

Creation of favorable and comfortable conditions for flights to the most popular destinations from Fergana Valley is the main goal of Uzbekistan Airways in organizing the “Vostochny” hub. According to the project, Uzbekistan Airways will use the international airports o of Namangan and Fergana towns to expand the route network from the region to the cities of the Russian Federation and popular cities in abroad among the residents of Fergana Valley.

From January 31, 2022, Uzbekistan Airways starts operating direct regular flights from Namangan to Moscow, Perm, Samara, Omsk, Orenburg, Irkutsk, Krasnodar and Yekaterinburg on the basis of Full Economy (full economy class) air transportation on Uzbekistan Airways Express aircraft. As demand grows, the expansion of the route network from Namangan will also be considered.

Also, it is worth noting that at the moment there are flights from Fergana International Airport to Moscow, Kazan and Istanbul, which was the first stage in the organization of the ”Vostochny” hub. After the completion of the second stage of the hub's development - the start of flights from Namangan, Uzbekistan Airways will begin the third stage - increasing the number of flights from Fergana, as well as expanding the route network from Fergana International Airport. At the same time, flights from Fergana are organized exclusively on the basis of classical (business and economy classes) air transportation.
