Hurmatli yo'lovchilar!

E'tiboringizga Uzbekistan Airways aviakompaniyasining navbatdagi bort jurnalini havola etamiz

Avvalambor sizni kirib kelayotgan yangi 2023-yil bilan muborakbod etamiz O'lkamizda hukm surayotgan sovuq ob-havo qishki ta'tillaringizni rejalashtirishga va uzoq kutilgan hordiqdan zavqlanishingizga to'sqinlik qilmaydi deb umid qilamiz Eng yorqin orzularingizni mujassam etgan holda, o'zingizga va yaqinlariningizga g'amxo'rlik qiling. Buning ajoyib usullaridan biri - sayohat.

Shunday yangi yil an'anasi borki, har bir inson ortga qarab, yil davomida qanday yo'lni bosib o'tganini sarhisob

qiladi. Bu ro'yobga chiqqan orzular, erishilgan maqsadlar yoki uzoq kutilgan g'alabalar bo'lishi mumkin. Uzbekistan Airways aviakompaniyasi ham 2022-yil davomida amalga oshirilgan ishlar natijalarini tahlil qilishga qaror qildi. Shu sababli, ushu sonda so'nggi 12 oy ichida aviakompaniyada yuz bergen ozgarishlarga e'tibor qaratiladi. Aviaparkning kengayishi, xalqaro va ichki aviaqatnovlar sonining ko'payishi, ijtimoiy loyihalarning yo'lga qo'yilishi, xalqaro ko'rgazmalarda ishtirot etish – bularning barchasi Uzbekistan Airways aviakompaniyasining joriy yilda erishgan yutuqlarining kichik bir qismi xolos. Yangi 2023-yilda bu ro'yxat, shubhasiz, kengayadi.

Biz sizga 2022-yilda erishgan yutuqlaringiz uchun o'zingizni rag'batlantirib, sayohatga yo'l olishni

taklif qilamiz. Buyuk Ipak yo'lida joylashgan qadimiy shaharlar – Toshkent, Samarqand, Xiva va Buxoro qishki ta'til uchun eng ommabop maskanlardir. Ta'tilni chet elda o'tkazish istagida bo'lganlar uchun biz Seul, London, Frankfurt va Nyu-Yorkka amalga oshiriladigan xalqaro reyslarni taklif qilamiz, u yerda qorli Yangi yil kafolatlanadi. Mabodo siz sovuq ob-havodan zerikib, issiq o'lkalarga yo'l olmoqchi bo'sangiz, u holda hech ikkilanmay yil davomida quyosh porlab turadigan Kuala-Lumpur va Dubayga aviachipta xarid qiling. Uzbekistan Airways jadvali shu qadar xilma-xilki, siz o'zingiz xohlagan yo'nalishni qiyinchiliksiz topishingiz mumkin.

Sizga yoqimli parvoz tilab, kirib kelayotgan yangi yil bilan tabriklaymiz!

2022-YIL NATIJALARI:

**o'tib borayotgan yil

2022-yilning yanvar oyida
aviakompaniya o'zining 30-yilligini
"Xavfsizlik. Barqarorlik. Qulaylik."
yorqin shiori ostida nishonladi.

Ushbu maqolada Uzbekistan
Airways aviakompaniyasi
yo'lovchilarini xursand qilgan
ko'plab yangiliklar haqida so'z
boradi.

2022-yilda yo'lovchilar uchun
muhim voqe - aviakompaniya

ham qoshiladi.

Bundan tashqari, 2022-yilda
Namangan shahrida «Sharqiy»
xab loyihasini rivojlantirishga
katta kuch sarflangan edi. Ushbu
loyihaning maqsadi Farg'ona
vodiysi aholisi uchun mavjud
xalqaro yo'nalishlar sonini
ko'paytirishdan iborat. Buning
uchun Namangandan Rossianying
9 ta shahriga, Olmaotaga mavsumiy
aviaqatnovlar, shuningdek, oktyabr
oyida Farg'ona shahridan Dubayga
to'g'ridan-to'g'ri parvozlarni yo'lg'a
qo'ydi.

2022-yildan O'zbekiston hududlari

yo'lda qo'yildi. Endilikda
aviakompaniya yo'lovchilari
Andijon – Samarqand – Andijon,

26 000 dan ziyod aviaqatnovlarni
amalga oshirishi va **3,9 milliondan
ortiq yo'lovchini** o'z manzillariga
yetqazishi kutilmoqda, ularning
7% ga yaqinini bolalar tashkil qiladi.

2022

Aviakompaniya aviaparkining kengayishi o'tayotgan yilning asosiy voqeasi bo'ldi. Uzbekistan Airways tashkil etilganining 30 yilligi munosabati bilan yangi rusumdag'i 3 ta havo kemasi – Airbus A321neoga ega bo'ldi. Shuningdek, aviakompaniya o'z parkini shu rusumidagi ikkita yangi samolyot bilan to'dirishni rejalashtirmoqda.

Aviakompaniya faoliyatidagi muhim voqeasi Uzbekistan Airways rasmiy brend targ'ibotchisining e'lon qilinishi bo'ldi. Nafaqat yurtimizda, balki xorijda ham taniqli xonanda, sayohat ishqiboz Sevara Nazarxon aviakompaniya elchisiga aylandi.

Bizning asosiy bo'linmalarimiz tomonidan ham aviakompaniya yo'lovchilariga yangilangan xizmatlar taqdim etildi.

Shu yili yozda "O'quv-mashq markazi" MCHJ bo'lg'usi bortkuzatuvchilarni o'qishga qabul qilishi haqida e'lon qildi. Endi yosh yigit-qizlar O'quv-mashq markazida o'qib, ushbu kasbni egallaganliklari haqida sertifikat olishlari mumkin.

Bu uzoq kutilgan yangilikdan so'ng o'quv markaziga 840 ta ariza kelib tushdi. Suhbatdan muvaffaqiyatli o'tgan bir guruh nomzodlar O'quv-mashq markazida tayyorgarlikdan o'tib, ayni paytda Uzbekistan Airways bortkuzatuvchilar safiga qo'shilish uchun tayyorlanmoqda.

2022-yil boshidan dekabr oyiga qadar "Ketring" MChJ Uzbekistan Airways yo'lovchilari uchun 3 millionga yaqin bort taomlarini tayyorladi. Shuningdek, aviakompaniyaning yangi bosh oshpazi Fatih Berber bilan birgalikda bort taomlarining yangi konsepsiyasini yaratdi. Endi Seulga uchuvchi yo'lovchilar parvozlarda

yangi bort taomlaridan bahramand bo'lishlari mumkin.

"Uzbekistan Helicopters" MCHJ yangi Airbus H130 vertolyotlarida parvozlarni amalga oshirishni boshladi. Shunga qaramay, vertolyotda sayr qilishni xush ko'ruchilar ortasida H125 va Mi-8 modellariga ham talab yetarlicha. 2022-yilda "Uzbekistan Helicopters" xizmatidan 1200 dan ortiq kishi foydalangan.

"Uzbekistan Airways Technics" MCHJ 2022-yilda o'zining

98 yilligini nishonlab, 15 dan ortiq aviakompaniyalarga xizmat ko'ssatdi va uchta xalqaro ko'rgazmada ishtirot etdi.

Uzbekistan Airways ham aviatsiya va turizmga bag'ishlangan 11 dan ortiq xalqaro ko'rgazmalarning ishtirokchisiga aylandi.

Biz bu ko'satkichlarning barchasiga

yo'lovchilarimizning qo'llab-quvvatlashi tufayli erishdik va 2023-yilda ularni yanada ko'proq xushxabarlar kutmoqda.

Yangi 2023-yilda Uzbekistan Airways yo'lovchilari yanada ko'proq yo'nalishlarga sayohat qilish imkoniyatiga ega bo'ladilar, bortda yanada qulaylik, yo'lovchilar haqida qayg'urish va, albatta, barcha sohalarda xavfsizlikka bo'lgan e'tibor kuchaytiriladi.

2022 RESULTS:

highlights of the outgoing year

Celebrating its 30th anniversary under the bright motto "Safety. Stability. Comfort" in January 2022, Uzbekistan Airways pleased passengers with a number of new features, which we are going to talk about in this article.

A major development for passengers in 2022 was the expansion of the airline's route network. This year flights started operating to Batumi, Irkutsk, Sharm el-Sheikh, Paris, Tokyo, Milan, Rome and Kuala Lumpur. Bangkok is going to join this list soon.

Furthermore, in 2022, a number of efforts were invested in the development of the "Eastern hub" project in Namangan.

This project aims to increase the number of international destinations available to residents of the Fergana Valley. For that, flights have been started operating from Namangan to 9 cities of Russia as well as to Almaty and from Fergana to Dubai.

In 2022, scheduled flights were carried out from one region of Uzbekistan to another.

Now passengers of the airline can travel on such routes as Andijan – Samarkand – Andijan, Samarkand – Namangan – Samarkand, Urgench – Fergana – Urgench, Samarkand – Fergana – Samarkand and Namangan – Bukhara – Namangan.

According to statistics, by the end of 2022, number of operated flights on international and local

Within 2022, Uzbekistan Airways carried millions of passengers, operated thousands of flights, purchased new aircrafts and expanded its route network.

directions including 40 cities in Europe, Asia, North America is going to be more than 26 000 and number of carried out passengers is awaited to be more than 3.9 million, among which 7% are children.

The expansion of the airline's fleet became the main event of the year. In honor of the 30th anniversary, Uzbekistan Airways acquired three aircraft of the new model – Airbus A321neo. The airline also plans to add two new aircraft of the same model to its fleet.

A major event in the airline company's activity was the announcement of its official ambassador – travel enthusiast and famous singer, whose name is known far beyond Uzbekistan, Sevara Nazarkhan.

The airline's divisions also updated services for our passengers. This summer, «Traning center» LLC has given opportunity for young people to master the profession of a flight attendant by training in the «Training center» and receiving certificates.

«Catering» LLC has prepared around 3 000 000 meals for passengers of Uzbekistan Airways from the beginning of 2022 until the end of December.

Moreover, in collaboration with the new chef Fatih Berber, they created a new onboard meals concept. Passengers can already appreciate these meals on flights to Seoul.

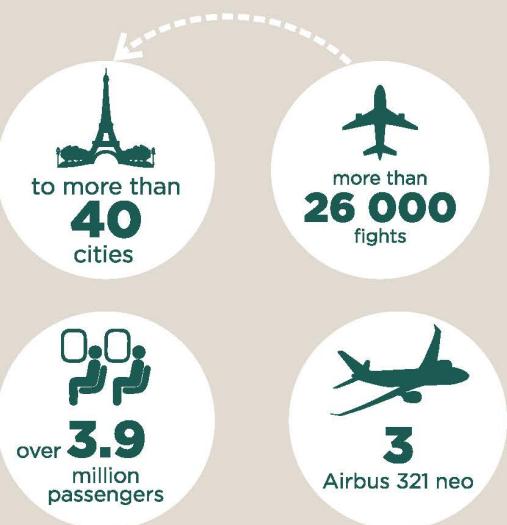

«Uzbekistan Helicopters» LLC started to organize tours on new Airbus H130 helicopters. Nonetheless, the H125 and MI-8 helicopter models have not lost their popularity among helicopter tour enthusiasts. By 2022, more than 1 200 people had flown with Uzbekistan Helicopters.

«Uzbekistan Airways Technics» LLC, which celebrated its 98th anniversary in 2022, maintained over 15 airlines and took part in 3 international exhibits. Uzbekistan Airways also participated in more than 11 international exhibitions dedicated to aviation and tourism during this year.

We have achieved all these numbers thanks to the support of our passengers, and they are going to receive more good news from Uzbekistan Airways in 2023. In the coming New Year, 2023, there will be more destinations available for Uzbekistan Airways' passengers, more comfort on board and, of course, the same careful attention to safety in all areas.

Uzbekistan Airways bilan ilk parvoz

Har birimiz bolaligimizda osmonda samolyotlarni ko'riboq zavq bilan tomosha qilib qachonlardir ular bortida bo'lishni orzu qilar edik. Uzbekistan Airways aviakompaniyasining 2022-yil mart oyida boshlangan "Ilk parvozim" ijtimoiy loyihasi qahramonlari butun umri davomida ana shu orzu bilan yashagan edilar.

Ushbu loyiha ommaviy axborot vositalari va jamoatchilikning katta e'tiborini tortdi. 2022-yilda jami 5 ta ijtimoiy parvoz amalga oshirilib, ular yordamida "Temir daftari"ga kiritilgan 70 dan ortiq ayollar ilk bor osmonni zabt etishga muvaffaq bo'ldi. Ishtirokchilar ro'yxati mahalla va oilani qo'llab-quvvatlash vazirligi bilan tayyorlangan edi.

"Ilk parvozim" loyihasida umrini oilasiga bag'ishlagan va orzu umidlarini amalga oshira olmagan ayollarning haqiqiy hikoyalari aks ettiriladi. Uzbekistan Airways ushbu loyihani tashkil etish orqali nafaqat o'zbek ayollarining hayotiga ijobiy tasir ko'rsatish, balki O'zbekistonda ijtimoiy loyihalarni yanada rivojlantirishga ham hissa qo'shishga intiladi.

"Ilk parvozim" loyihasining birinchi manzili Xiva bo'ldi. 31-mart kuni Toshkent viloyatining har xil tumanlaridan bo'lgan 15 nafar ayol 2500 yildan ortiq tarixga ega Ichandal'a majmuasiga sayohat qilishdi. Safar davomida, loyiha qahramonlaridan biri, Sanobar Shirinova, ushbu sayohat ularni sifatli tashkil etilganligi bilan hayratga solganini va ularda unutilmas taassurotlar qoldirganini tan oldi.

“

Men birinchi marta samolyotda uchishga qórqmadim va yana bir oy bolalarga bu sayohat haqida aytib beraman", — deydi Sanobar Shirinova.

Ikkinchi guruh ayollari esa Buxoroning go'zal joylaridan bahramand bo'lib, o'rta asr Sharq olami bilan tanishdilar.

17-may, ya'ni, safarning birinchi kuni loyihaning qahramonlari YUNESKOning Umumjahon merosi ro'yxatiga kiritilgan Buxoroning tarixiy markaziga tashrif buyurishdi, ular orasida Labi-hovuz ansamblı, Mag'oki Attori masjidi, Chor Minor, Mir Arab, Ulug'bek madrasaları, Ark qalası va boshqa diqqatga sazovor joylarni ko'rdilar. Sayohatning ikkinchi kuni, 18-mayda ayollar shahar tashqarisida joylashgan Buxoroning so'nggi amiri Sitorai Mohi Xosa yozgi qarorgohiga yo'l oldi. Keyinroq so'fiylik tariqati asoschisi Bahouddin Naqshband maqbarasi me'morchiligi bilan tanishdilar.

Uchinchil guruh ayollar esa havo kemasida Termiz shahriga sayohat qilish imkoniga ega bo'ldi va u yerda O'zbekistondagi eng baland sharsharalardan biri – Sangardakka tashrif buyurishdi. Bu safargi parvozda Sirdaryo viloyatinning Sardoba tumanidan 2020-yilda tabiiy ofatdan aziyat chekkan ayollar ishtirok etishdi.

Uzbekistan Airways ijtimoiy tarmoqlarining obunachilari ishtirokchilardan biri – Barno Karimovani chin dildan qollab-quvvatlashdi.

“

Barchangizga katta rahmat!
Shuningdek, barchaga
ko'proq sayohat qilishlarini
va samolyotda uchishlarini
tilayman. Samolyotda uchish
orzuimni ro'yobga chiqarish
imkoniga ega bo'lganimdan
juda xursandman”, — dedi
Barno Karimova.

“

Avvaliga men bunga
ishonmadim. Ammo bir kun
shunday yig'ilib, sayohatga
chiqish mumkin ekanligini endi
tushundim”, — dedi u.

“Ilk parvozim” loyihasi doirasidagi navbatdagi sayohat 28-29-iyul kunlari bo'lib o'tdi. To'rtinchi guruh ayollar Namangan viloyatidan Toshkentga samolyotda ilk parvozini amalga oshirishdi. Ma'lum bo'lishicha, loyihaning ishtirokchilaridan biri, Ziyodaxon, ularga poytaxt tomon parvoz qilish imkoniyati berilganiga darhol ishonmagan ekan.

15 nafar ayollar poytaxtimizning ham qadimiy, ham zamonaviy nuqtalarini – Xazrati Imom majmuasi, qadimiy Chorsu bozori, Tashkent City va Magic City bilan tanishdilar. Safarning eng esda qolarli lahzasi esa xonanda va bastakor Sevara Nazarxon bilan uchrashuv bo'ldi.

18-oktyabr kuni Jizzax viloyatida yashovchi ayollar Xiva shahriga parvoz qilib, “ochiq osmon ostidagi muzey” nomi bilan mashhur - Ichan qal'a majmuasiga tashrif buyurishdi. Ko'hna ark, Said Alouddin maqbarasi, Muhammad Aminxon madrasasi, Islom Xo'ja minorasi, Tosh hovli saroyi va boshqa diqqatga sazovor tarixiy joylar ishtirokchilarni lol qoldirdi.

Kelayotgan 2023-yilda Uzbekistan Airways aviakompaniyasi axloqiy me'yorlar, insonlarga hamda atrofimizdagi jamiyatga hurmat ko'sratgan holda umum-ijtimoiy mas'uliyat yo'lini davom ettirish niyatida. Ushbu konseptsiya jamiyat manfaatlarini hisobga oladi va muayyan ijtimoiy maqsadlarni ko'zlaydi. Mazkur strategiya orqali Uzbekistan Airways jamiyat rivojiga hissa qo'shish, barchaning ishonchini qozonish va obro'-e'tiborini mustahkamlashga intiladi.

On the first flight with Uzbekistan Airways

As children, we all used to shout in delight whenever we spotted planes in the sky and wished we could someday board them.

This was a lifelong dream of the participants of Uzbekistan Airways' "Ilk parvozim" social project, which was launched in March 2022. The project has attracted considerable media and public attention. A total of five social flights were carried out in 2022, with the help of which more than 70 female members of "Temir daftар" were able to get on a plane for the first time. The list of participants was prepared jointly with the Ministry for support of mahalla and family.

"Ilk parvozim" reflects the true stories of women who have devoted their lives to family and are unable to fulfil their dreams. Through this project, Uzbekistan Airways aims not only to have a positive impact on the lives of Uzbek women, but also to contribute to the further development of social projects in Uzbekistan.

The first destination of the "Ilk parvozim" project was Khiva, where 15 women from different districts of the Tashkent region went on their journey. On 31 March, they visited more than 2,500-year-old Itchan Kala complex. During the tour, Sanobar, one of the participants of the project, admitted that the trip impressed her with the quality of the organisation and left a lasting impression on her.

“

I was not afraid to go on my first flight. I am going to keep telling my children about the trip for a month," Sanobar shared.

The second group of women enjoyed beautiful places of Bukhara and got acquainted with the world of the medieval East.

On the first day of their journey, 17 May, group of participants visited the historic centre of the city, which is included to a UNESCO World Heritage site: Lyabi-Hauz ensemble, the Magoki-Attori mosque, the Chor-Minor madrasah, Miri-Arab, Ulugbek, Ark fortress and others. On the second day, 18 May, the group travelled to the summer residence of the last Emir of Bukhara, Sitorai-Mohi Hosa, located outside the city.

Later, they were introduced to the architecture of the mausoleum of the Sufi order's founder, Bahouddin Naqshbandi.

A third group of women had the chance to travel by plane to Termez, where they visited one of Uzbekistan's highest waterfalls, Sangardak. This time the participants were women from Sardoba district, who survived a natural disaster in Syrdarya region in 2020.

The followers of Uzbekistan Airways' social media accounts expressed strong support for one of the participants, Barno Karimova.

“

Thank you all very much! I wish everyone to travel more and fly by plane as well. I am very happy that I had the opportunity to fulfil my dream of flying on a plane,” Barno Karimova shared her impressions.

The next trip of the "Ilk parvozim" project took place on 28 and 29 July. The fourth group of women took their first ever flight from Namangan region to Tashkent. It turned out that Ziyodakhon, one of the project participants, could not immediately believe that she had the chance to fly to the capital city.

“

I did not believe it in the beginning. But now I realise that getting together for a day like this and going on a trip is quite possible,” she said.

They toured both the ancient and modern parts of the capital, including the complex of Khazrati Imam, Chorsu bazaar, Tashkent City and Magic City. The highlight of the trip was a meeting with singer and composer Sevara Nazarkhan.

On 18 October, a fifth group of women living in Jizzakh region flew to Khiva and visited Ichan Kala complex, known as an “open air museum”. The participants were impressed by historic sites such as Kunya-Ark fortress, the mausoleum of Said Alauddin, the madrasah of Mukhammad Amin-khan, Islam Khoja minaret, Tash-Khovli palace and others.

In the coming year, Uzbekistan Airways intends to continue the path of corporate social responsibility, based on ethical standards, respect for people, communities and the environment. The concept considers the interests of society and pursues specific social goals to further achieve them. Through this strategy, Uzbekistan Airways aims to contribute to the development of society, gain the trust and build a positive reputation.

Ekoturizm - O'zbekistonni qamrab olgan yangi yo'nalish

Ayni paytda O'zbekistonda ekologik turizmni rivojlantirishga tobora ko'proq e'tibor qaratilmoqda. Buning sababi shundaki, mamlakatimiz nafaqat o'zining maftunkor me'morchiligi va taomlarining xilmalligi, balki ajoyib tabiat manzaralari bilan ham mashhur. Ekoturizm, avvalambor, tabiat bilan birlashish va shaharning kundalik shovqinidan dam olish imkoniyatidir.

Atrof-muhitni asrash va muhofaza qilishga qaratilgan davlat siyosati tufayli O'zbekistonda ekoturizm tez rivojlanib bormoqda. Respublikada bir qator muhofaza etiladigan tabiiy hududlar, jumladan, Zomin va Nurota qo'riqxonalar, Ugam-Chotqol milliy bog'i, Jayron ekomarkazi va shu kabi joylar mavjud. Ushbu masalada Qizil kitob ham muhim rol o'yaydi, unda 184 hayvon va 314 o'simlik turi ro'yxatga olingan. Noyob hayvonlar orasida Turkiston silovsini, qor qoploni, tosh suvsar, morxo'r, sayg'oq va boshqa yo'qolib borayotgan jonzotlar bor. Qizil kitobga kiritilgan hayvonlarni ovlash taqiqlangan: ularni nafaqat o'ldirish, balki tutish ham mumkin emas. O'simliklarni esa yulib, payhon qilish va daraxtlarni kesish man etiladi.

Bugungi kunda ekoturizm daromadli soha bo'lib, Keniya, Ekvador, Kosta-Rika, Nepal kabi mamlakatlardan uchun asosiy daromad manbai sifatida xizmat qilmoqda. Ekoturizm iqtisodiy imkoniyatlardan tashqari, tarbiyaviy ahamiyatga ham ega. Mazkur sektor O'zbekistondagi sayyohlar va uning aholisini chiqqindilarining tabiatga zararli ta'siri to'g'risidagi bilimlarini oshirishga qaratilgan.

O'zbekistondagi eng mashhur ekologik va sayyohlik hududlaridan biri Buxoro shahri yaqinida joylashgan “**Jayron**” **ekomarkazidir**. Ushbu tashkilotning maqsadi jayron, qulon, Prjevalskiy oti, Buxoro tog' qo'yulari, morxo'r kabi noyob hayvon turlarini ko'paytirish. Bundan tashqari, markazning ilmiy bo'limi hayvonlar biologiyasini o'rganish va noyob turlarning genetik bankini yaratish bilan shug'ullanadi. Sayyoohlarni uchun ekomarkazning bir nechta tematik ekskursiyalar va yovvoyi tabiatda noyob hayvonlarni kuzatish imkoniyatiga ega safarilar bor.

O'zbekiston sayyoohlari va aholisi orasida Qizilqum cho'lining chekkasida joylashgan va xalq orasida “tabiat mo'jizasi” nomi bilan tanilgan - **Aydarko'l** ham mashhurdir. Ko'lning o'simlik va hayvonot dunyosi chinakam rang-barang va boy: qirmizi lolalar va oq akatsiyalar bahor hamda yozda o'tloqlarni bezatadi, baland tog'larda esa ulug'vor qora laylaklar uya soladilar. Erta bahorda ko'l yaqinida o'rdak, goz va saqoqushlarni uchratish mumkin. Bu yerda sayyoohlarning sevimli mashg'uloti baliq ovlash va suzish hisoblanadi.

Sayyoohlarni tabiat bilan chinakam uyg'unlikka erishish uchun O'zbekistonning uchta viloyati – Samarqand, Navoiy va Jizzaxga kiruvchi **Nurota tog'lari**ga borishlari mumkin. Nurota tog'lari hududida bir qancha tog'li qishloqlar bo'lib, ularning aholisi o'zining ko'ngilchanligi va mehnatsevarligi bilan mashhur. Nurota tog'larida betakror manzaralar bilan bir qatorda eski suv tegrimoni, pillachilik fermasi, an'anaviy cholg'u asboblarini yasovchi ustalar bilan tanishish imkoniyati ham mavjud. Mehnmonlar gilam to'qish jarayonini o'z ko'zlari bilan ko'rishlari mumkin bo'ladı.

Ecotourism - a new trend, taking over Uzbekistan

In Uzbekistan, more and more attention is now being paid to the development of ecotourism. And not without reason, as our country is famous not only for fascinating architecture and diverse cuisine, but also for breathtaking natural landscapes. First of all, ecotourism is an opportunity to unite with nature and rest from the hustle and bustle of city life.

Ecotourism in Uzbekistan is being developed rapidly due to the state policy aimed at preserving and protecting the environment. There are a number of protected areas in the republic, including the Zaamin and Nurata nature reserves, the Ugam-Chatkal national park, ecological center "Jeyran" and others. The Red Book, in which 184 species of animals and 314 species of plants are listed, also plays an important role. Rare animals include the Turkestan lynx, the snow leopard, stone marten, ibex (also known as markhor), saiga antelope and other endangered representatives of fauna. It is forbidden to hunt Red Book animals: not only must they not be killed, they must not be caught. Plants may not be plucked and trampled, as well as trees may not be cut down.

Nowadays, ecotourism is a promising lucrative industry and serves as a major source of income for countries such as Kenya, Ecuador, Costa Rica and Nepal. In addition to its economic features, ecotourism also has an educational attribute. The sector aims to increase the knowledge of tourists and residents of Uzbekistan about the detrimental effects of waste on nature.

One of the most famous eco-tourism destinations in Uzbekistan is [the ecological center "Jeyran"](#), located on the outskirts of Bukhara. The organisation breeds rare animal species such as the gazelle, kulan, Przewalski's horse, Bukhara mountain sheep and ibex. In addition, the centre's scientific department studies the biology of animals and creates a genetic bank of rare species. For tourists, the eco-centre has developed several thematic tours - safaris with an opportunity to observe rare animals in the wild.

Lake Aidarkul, known as the "miracle of nature" and located on the edge of the Kyzylkum desert, is also particularly popular among tourists and residents of Uzbekistan. The flora and fauna of the lake is truly colourful and rich: red tulips and snow-white acacia trees decorate the meadows in spring and summer, and majestic black storks nest high in the mountains. In early spring, flocks of ducks, geese and pelicans can be spotted near the lake. Fishing and swimming are popular among tourists.

To achieve the harmony with nature tourists go to **the Nuratau mountains**, which are located in three regions of Uzbekistan - Samarkand, Navoi and Jizzakh. On the territory of Nuratau mountains there are several villages, inhabitants of which are noted for their kindness and diligence. Besides unique landscapes, in the Nuratau mountains you can visit an old water mill, a silkworm farm and get to know the makers of traditional musical instruments. Visitors can also witness carpet weaving process.

2022-yilda Uzbekistan Airways aviakompaniyasidagi o'zgarishlar: uchuvchilarni jalb qilish va bortkuzatuvchilarni tayyorlash

Zamonaviy laynerda xavfsiz parvoz qilish har bir yo'lovchining xohishi. Uzbekistan Airways ushbu maqsadni tashkil topgan kunidan boshlab amalga oshirib kelmoqda. Uzbekistan Airways 30 yildan ortiq faoliyati davomida butun dunyoda xavfsiz va ishonchli aviakompaniya sifatida tanilgan va tan olingan. Buning sababi esa faoliyatimizning asosiy tamoyillari: xavfsizlik, barqarorlik va qulaylik.

Bugungi kunda aviakompaniya Airbus oilasining zamonaviy havo kemalari: A320, 320neo, 321neo va Boeing oilasiga tegishli: Boeing-757, 767, Boeing-787 Dreamliner havo kemalariga ega. Havo parkining yangi Airbus A321Neo havo kemalari bilan to'ldirilishi – esa yo'lovchilarga ko'rsatilayotgan xizmatlarni yaxshilash yo'lidiagi yana bir yangi qadam.

Shunga ko'ra, bu samolyotni boshqaradigan va bortda yaxshi xizmat ko'rsatadigan mutaxassislarni talab qiladi.

!!

Professional kadrlarni jalb etish va fuqaro aviatsiyasi uchuvchilarini tayyorlash Uzbekistan Airways oldida turgan muhim vazifalardan biridir. Ilgari aviakompaniya parvoz muassasalari talabalari bilan shartnomalar tuzgan bolsa, endi biz ushbu muassasalarning bitiruvchilarini - tayyor uchuvchilarni ish bilan ta'minlaymiz. Bitta uchuvchini tayyorlash uchun bir necha yil kerak bo'ladi va moliyaviy tomondan bu katta mablag' talab etadi. Bugungi kunda bizni mezonlarga to'g'ri keladiganlar orasidan mutaxassislarni tanlab olmoqdamiz. Tanlovdan muvaffaqiyatlari o'tgandan so'ng biz ularni havo kemasi turlari bo'yicha tayyorlashga yuboramiz. Doimiy bilim olish va malaka oshirish parvoz ishida juda muhim o'rinn tutadi.

Bizning uchuvchilarimiz nafaqat mamlakatimizda, balki xorijiy mamlakatlarning aviakompaniyalarida ham tanilgan, ular hozirda ham uchuvchi sifatida o'z faoliyatini davom ettirmoqdalar, – deydi Sergey Kim, "Uzbekistan Airways" AJ Parvoz xizmati departamenti direktori.

Joriy yilning bahorida Airbus havo kemalarining amaldagi ikkinchi uchuvchilari xorijiy kompaniyalar orasidan tanlab olindi. Bugungi kunda 9 nafar ikkinchi uchuvchi Uzbekistan Airways aviakompaniyasida faoliyat olib bormoqda. Joriy yilning yozgi mavsumida, shuningdek, amaldagi uchuvchilar orasida Airbus oilasiga tegishli A320/321 havo kemalari komandiriga ehtiyoj ortdi.

Xorijiy kompaniyalarning amaldagi uchuvchilari orasidan kema komandirlari tanlab olindi. Ular orasida nafaqat O'zbekistondan, balki Qozog'iston va Rossiyadan ham uchuvchilar bor.

"Uzbekistan Airways" AJ tarkibiy bo'linmasi – "O'quv-mashq markazi" MCHJ hududida joylashgan trenajyor-simulyatorlarida mashg'ulotlar o'tkazish uchuvchilarini tayyorlashning muhim bosqichlaridan biri hisoblanadi. Ushbu markaz Markaziy Osiyoda yetakchilardan biri hisoblanadi.

Tayyorgarlik dunyoning ko'plab aviakompaniyalarida, shu jumladan Uzbekistan Airways aviakompaniyasida ko'p yillik tajribaga ega bo'lgan mutaxassislar tomonidan olib boriladi.

Uzbekistan Airways aviakompaniyasi bugungi kunda Boeing (Turkiya) va Airbus (Tuluza, Bahrayn) kabi uchuvchilarni tayyorlash va qayta o'qitish bo'yicha dunyoning yetakchi markazlari bilan hamkorlik qilmoqda. Har bir uchuvchini qayta tayyorlash, o'qitish va malakasini oshirish mutaxassislarni yanada kelajakdagi rivoji uchun katta rag'bat. Shuningdek, aviakompaniya Amerikaning

2021-yildan boshlab Uzbekistan Airways biznes aviatsiya rivojining boshlanishini e'lon qildi. Bugungi kunda parvozlar zamonaviy Pilatus PC-24 biznes-jetda amalga oshirilmoqda. Ushbu turdag'i avialaynerda allaqachon uchta uchuvchi o'qitilgan, ularga parvozlarni amalga oshirish uchun sertifikatlar taqdim etilgan. Ushbu havo kemasiqa xizmat ko'ssatadigan ikkita muhandis ham oqitildi.

2022-yil boshidan boshlab aviakompaniya 30 nafar mutaxassis uchuvchini, shu jumladan chet el fuqarolarini bir yil muddatga ish bilan ta'minladi. Aviakompaniya parvozlar tarkibini O'zbekistondagi parvoz ta'lim muassasalarining yosh bitiruvchi mutaxassislari bilan to'dirish niyatida.

Bortkuzatuvchilik romantik kasb hisoblanadi. Ko'pchilikning fikriga ko'ra, bu turli shahar va mamlakatlarga tashrif buyurish imkoniyatidir. Ammo, aslida, bu mashaqqatli ish – tungi parvozlar, iqlim va vaqtning tez-tez o'zgarishi, kasbiy faoliyati davomida o'rganilishi kerak bo'lgan juda ko'p bilim va ko'nikmalarni o'z ichiga oladi. Shuning uchun, bu kasbda faqat o'z ishini chinakam sevadiganlar qoladi.

taniqli The Boeing Company korporatsiyasi bilan shartnomha imzoladi. 2016-yilda aviakompaniya Uzbekistan Airways'ga "orzu layneri" nomi bilan tanilgan birinchi Boeing 787 Dreamlinerni yetkazib berdi. Shu vaqtдан boshlab aviakompaniya, ayniqsa uchuvchilar uchun yangi rivojlanish davri boshlandi.

II

Bugungi kunda aviakompaniyada 765 nafar bortkuzatuvchi ishlaydi. Ular aviakompaniyada mavjud bo'lgan barcha turdag'i havo kemalariga ruxsatnomalarga ega. Agar bunday ruxsatnomaga bo'lmasa, borkuzatuvchi ushbu turdag'i havo kemasiida parvoz qila olmaydi. Buning sababi shundaki, bortkuzatuvchining asosiy vazifasi yo'lovchilar xavfsizligini ta'minlash.

Har qanday kutilmagan vaziyatda har bir ekipaj a'zosi o'z harakatlarini, favqulodda chiqish joylari va qutqaruv uskunalarini qayerda joylashganligini biladi. Havo kemalarining barcha turlari konfiguratsiyasi bilan farq qiladi, shuning uchun bortkuzatuvchilar ishlashga ruxsat olishadi va vaqtiga qatni bilan qayta o'qitiladi, barcha amaliyot va bilimlarini sinash uchun imtihonlardan o'tadilar. Yuqorida aytib o'tilganidek, yo'lovchilar xavfsizligi biz uchun birinchi o'rinda turadi, – deydi Kamola Zufarova, "Uzbekistan Airway" AJ Xizmat departamenti direktori.

Havo kemasi parki va yo'lovchilar tashishning doimiy o'sishi, parvozlar geografiyasining kengayishi munosabati bilan aviakompaniya 2022-yilda bortkuzatuvchi lavozimiga ishga qabul qilishni boshladi. Joriy yilning iyun oyidan beri 850 ta ariza qabul qilindi, shundan 420 nafar nomzod "O'quv-mashq markazi" MChJga suhbatga taklif qilindi.

Aviakompaniya talablariga javob beradigan va tibbiy ko'satkichlar bo'yicha mos keladigan eng yaxshi nomzodlarga qo'shishni davom ettiradilar va kasjni egallaydilar. Bortkuzatuvchilikka tanlov davom etmoqda, shuning uchun 30 yoshgacha bo'lgan barcha o'g'il-qizlar O'quv-mashq markaziga kelib ta'lif olishlari mumkin va ehtimol kimningdir orzusi amalga oshadi. Birinchi guruhlar allaqachon dastlabki tayyorgarlikdan o'tgan va bizning safimizga qo'shilishga tayyorlanmoqda, – davom etdi Kamola Zufarova.

Kurs bitiruvchilarining so'zlariga ko'ra, mashg'ulotlar davomida ular bortkuzatuvchining vazifalari qanchalik jiddiy va mas'uliyatlari ekanligini anglab yetdilar. Bo'lajak bortkuzatuvchilar o'z tajribalari bilan ortoqlashdilar:

Bortkuzatuvchi bo'lish uchun biz kerakli nazariy va amaliy bilimlarga ega bo'ldik. Mashg'ulotlar davomida men bortkuzatuvchi ish davomida o'zini qanday tutishi, yo'lovchilarga yuqori sifatli xizmat ko'rsatishi va parvoz vaqtida ularning xavfsizligini ta'minlashi kerakligini bilib oldim. Ilgari men bortkuzatuvchi bo'lish oson deb o'ylardim, lekin o'qishdan keyingina bu juda mas'uliyatlari kasb degan xulosaga keldim.

Qodir Parmonov

Bortkuzatuvchi bo'lishdan oldin, men maxsus mavzular kam va ularni o'rganish oson deb o'ylardim. Ammo mashg'ulotlar davomida men yo'lovchilar xavfsizligini ta'minlash bo'yicha ko'plab tafsilotlarni bilish kerakligini angladim. O'qituvchilar o'z ishlarini mukammal bajardilar va darslar juda qiziqarli va samarali o'tdi.

Masuma-begim Maximud-zade

Aviaparkini yangi havo kemalari bilan to'ldirish, kema komandirlari va ikkinchi uchuvchilarni jalb qilish, bortkuzatuvchilarni ishga olish va ularni o'qitish aviakompaniya tomonidan parvozlar tarkibida amalga oshirilgan katta ishlardan hisoblanadi. Ushbu rejalarning barchasi bizning faoliyatimizning asosiy tamoyili: xavfsizlik, barqarorlik va qulaylik yo'lida amalga oshiriladi.

Changes in Uzbekistan Airways for 2022: Pilot hiring and flight attendant training

Today the airline possesses modern aircraft of Airbus family: A320, 320Neo, 321Neo, and of Boeing family: Boeing-757, 767, Boeing-787 Dreamliner. Update of the fleet with new Airbus A321Neo aircraft is another new step towards improving services for passengers. Accordingly, it requires specialists who will operate the aircraft and provide good service on board.

“

“Attracting professional staff and training civil aviation pilots is one of the important tasks that Uzbekistan Airways airline faces. In the past, the airline used to sign contracts with students for studying at flight educational institutions, but now we employ its graduates. It takes several years to train one pilot, and financially it is not a small expense. Nowadays, we are selecting the specialists among those who fit our criteria. After successful completion of competitive selection students are being trained for types of aircraft. Continuous training and professional growth of pilots is very important in flight work. Our pilots are known not only in our country, but also in airlines of foreign countries, where to this day they continue their work as active pilots,” Sergey Kim, Director of Flight Service Department at Uzbekistan Airways, told to magazine.

A safe flight on a modern airliner is every passenger's wish. Uzbekistan Airways has been pursuing this goal from the date of its formation. For more than 30 years Uzbekistan Airways is known and recognized worldwide as a safe and reliable air carrier. This is based on the main principles of its work: safety, stability and comfort.

The selection of current Airbus co-pilots from foreign companies took place in the spring of this year. To date, nine co-pilots have flown on Uzbekistan Airways aircraft. There was also an increased demand for Airbus A320/321 family aircraft commander among active pilots during the summer season of this year. Thus, a selection has been made among active pilots of aircraft commanders of foreign companies. Among them are pilots not only from Uzbekistan, but also from Kazakhstan and Russia.

One of the important stages of pilots' training is exercising on flight simulators in the Uzbekistan Airways' Training Center, which is known as one of the leading organisations in Central Asia. Training is conducted by specialists who have many years of experience in many airlines around the world, including Uzbekistan Airways.

Uzbekistan Airways is currently collaborating with leading pilot training and retraining centres, such as Boeing (Turkey) and Airbus (Toulouse, Bahrain). The retraining, training and professional development of each pilot is a great stimulus for the further growth of specialists. The airline has also entered into an agreement with the renowned American corporation, The Boeing Company. In 2016, the company provided Uzbekistan Airways with the first Boeing 787 Dreamliner. From that moment, a new era of development began for the airline, especially for the pilots.

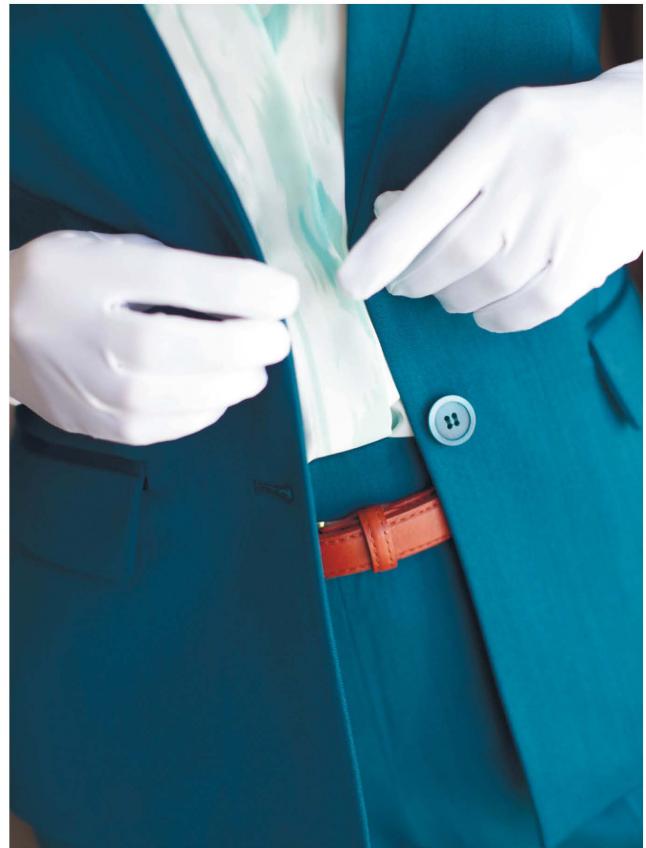

Uzbekistan Airways announced the start of business aviation development in 2021. Today, flights are operated in modern Pilatus PC-24 business jet. Three pilots have already been trained and certified to fly this type of plane. Two engineers, who are going to maintain the aircraft, have also received training.

Since the beginning of 2022, the airline has employed 30 pilots, including foreign citizens for a period of one year. The airline intends to add young specialists - graduates of Uzbekistan's flight institutes - to its flying staff.

The profession of flight attendant is shrouded in romance. Many people see it as an opportunity to visit different cities and countries. But in reality, it is hard work: night flights, frequent changes in climate and time zones, an enormous amount of knowledge and skills that need to be maintained throughout professional career. That is why only those who truly love their job stay in this profession.

“

The airline currently employs 765 flight attendants. They are authorised for all types of aircraft operated by the airline. Otherwise, a flight attendant will not be allowed to fly on that type of aircraft, because the main duty is to ensure passenger safety. In any emergency, each crew member knows what to do, where the emergency exits and rescue equipment are located. All aircraft types are different in their configuration, so flight attendants receive work permits and periodically undergo retraining and pass exams for knowledge of all procedures. After all, as mentioned above, passenger safety is of paramount importance to us,” Kamola Zufarova, Director of the Service Department of Uzbekistan Airways, shared.

Due to the constant growth of the aircraft fleet and passenger traffic, as well as the expansion of the flight geography, the airline announces selection process for flight attendant positions annually, and 2022 was no exception. Since June this year, 850 applications have been received, of which 420 candidates have been invited to interview at the Training Centre.

“

Only the best of them, who meet the airline's requirements and are medically fit, will continue their studies and master the profession. Selection process of flight attendants is continuing, so young men and women under 30 years of age can attend training at the Training Centre and perhaps someone's dream will come true. The first groups have already completed their initial training and are preparing to join our ranks,” Kamola Zufarova told to magazine.

According to words of courses' graduates, during the training, they have realised how serious and responsible tasks of flight attendants are. The future flight attendants shared their impressions:

In order to become a flight attendant, we received theoretical and practical knowledge. During these classes I learned how a flight attendant should behave during work, provide high-quality services to passengers and ensure their safety during the flight. I used to think that it was easy to become a flight attendant, but only after the training course I came to the conclusion that this job demands high responsibility.

Qodir Parmonov

I used to think that special subjects from flight attendant training course were few and pretty easy. But I realised during the classes that there are a lot of details to know about passenger's safety. Teachers did an excellent job, the classes were very interesting and efficient.

Masuma-begim Makhmud-zade

A lot of work was done on the airline's flight staff: replenishing the fleet with new aircraft, employing and training commanders, co-pilots and flight attendants. All these plans were carried out for the sake of Uzbekistan Airways' core principle: safety, stability and comfort.

Toshkent teleminorasi - poytaxt durdonasi

Dunyoda o‘zining hayratga soluvchi, noodatiy qurilishiga ega salobatli binolar ko‘p. Bunday inshootlar hoh katta hoh kichik bo‘lsin, ularda boshqa binolarda uchramaydigan o‘ziga xos dizayn, ajoyib tarix va go‘zallik mayjud. Mana shu kabi inshootlar shaharga tashrif buyuruvchilar va sayyoohlarning xotirasida o‘zining takrorlanmas ko‘rinishi bilan yodda qoladi. Toshkent teleminorasi ham o‘zining bejirim ko‘rinishi va o‘ziga yarasha tarixi bilan dunyoga mashhur Sharq gavhari (Shanxay, Xitoy) va Pekin markaziy teleminoralari kabi binolar nomlari yozilgan qatordan bemalol joy oladi.

Toshkent teleminorasi poytaxtning Yunusobod tumanida joylashgan. Uning balandligi 375 metrni tashkil qildi. Teleminoraga tashrif buyuruvchilar uchun “Koinot” nomli restoran xizmat ko‘rsatib, uning o‘zbek milliy taomlari uchun moslashtirilgan ko‘k zali hamda yevropacha taomlar tayyorlanadigan qizil zallari mavjud. Ushbu zallarning o‘ziga xos xususiyati shundaki, ular doimiy ravishda aylanib turadi va zallarga tashrif buyurgan mehmonlar 104 metr balandlikdan turib Toshkent shahrining bor go‘zalligidan bahramand bo‘lishlari mumkin.

Toshkent teleminorasi loyihasi mutaxassislar tomonidan yaxshilab o‘rganib chiqilgan va so‘ngra tasdiqlangan. Qurilish boshlanishidan oldin esa Germaniyadan Toshkentga po‘lat uskunalar olib kelingan. Poytaxt durdonasining qurilish ishlari 1978-yilda boshlanib 1985-yilda yakunlangan.

Mazkur muhtasham minorani qurishdan asosiy maqsad tele va radio sohalarini rivojlantirish bo'lgan. Qurilishi bitkazilgan yilning 15-yanvarida esa to'liq ishga tushirilgan.

Toshkent telemisorasining yaralishi "11-Balandqurilish" boshqarmasi quruvchilari tomonidan amalga oshirilgan. Foydalanishga topshirilgan yili telemisora jahonda balandligi bo'yicha to'rtinchi orinda turgan. O'sha paytda u Toronto, Moskva, Nyu-York va Tokiodagi inshootlar qatorida dunyoning buyuk minoralari xalqaro federatsiyasining a'zosiga aylangan. Hozirgi kunga kelib Toshkent telemisorasi dunyoda balandligi bo'yicha 12-orinda turadi hamda O'zbekiston telekommunikatsiya, turizm, gidrometeorologiya sohalari yo'lida foydalilanadi. Inshoot qurilishi xarajati 14.5 million AQSH dollarini tashkil etgan.

37 yildan buyon qad rostlab turgan mashhur va baland san'at asari Toshkent shahrining tashrif qog'ozlaridan biri hisoblanadi. Uning dizayni esa did bilan ishlangan. Uning barqarorligi har birining balandligi 93 metrdan bo'lgan uchta konus shaklidagi tayanchlar bilan ta'minlanadi. Mustahkam bino mintaqaning seysmiq sharoitlarini hisobga olgan holda barpo etilgan va to'qqiz ballgacha bo'lgan zilzilaga bardosh bera oladi.

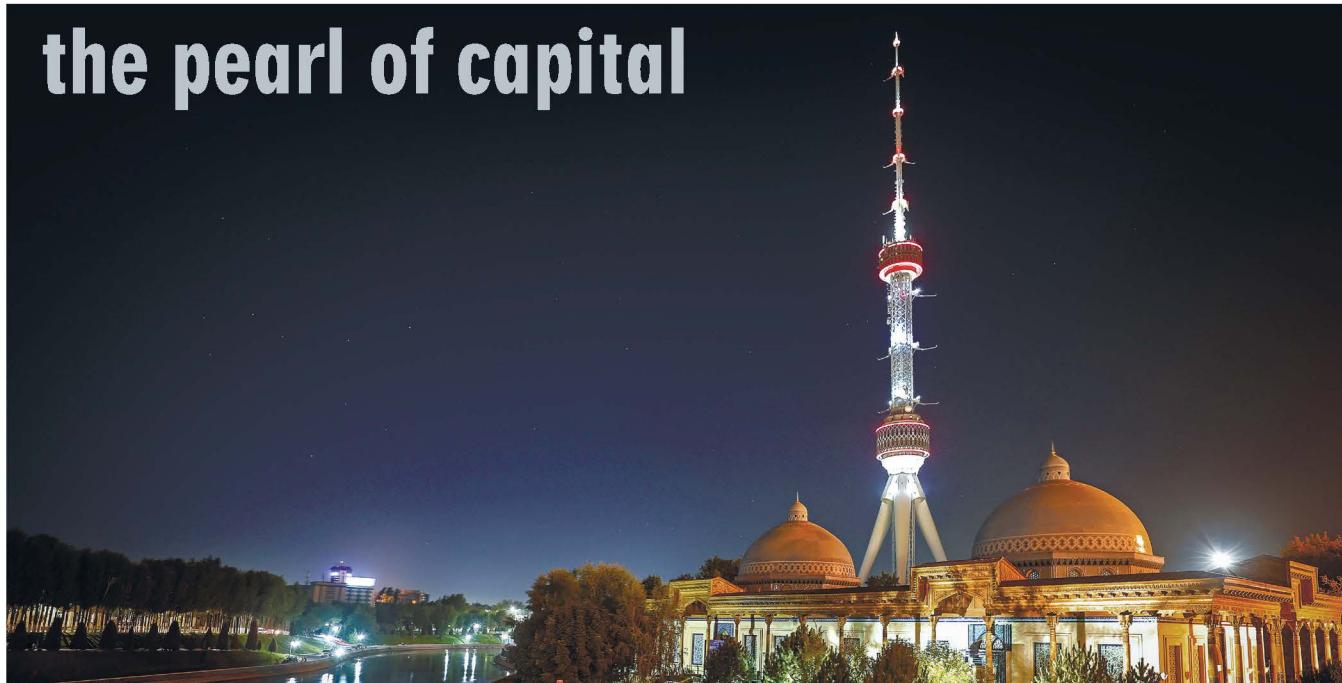

Inshootning noyob dizayni memorlar Nikolay Terziev-Tsarukov, Yuriy Semashko, shuningdek, muhandislar Yevgeniy Morozov va Mixail Musheyevlar tomonidan ishlab chiqilgan. Minoras vestibyuli usta Abdumalik Buxorboyev tomonidan yaratilgan Florensiya va Rim uslubidagi mozaika panellari bilan bezatilgan.

Toshkent telemisorasining kunduzgi va oqshom paytidagi ko'rinishi bir-birini takrorlamas go'zallikni namoyish etadi. U xuddi tim qora osmonda raqsga tushayotgan yulduzlarni eslatadi.

Buning sababi telemisora 2018-yilda ilk bor to'liq rang-barang yoritgichlar bilan bezatilgan. Toshkent telemisorasining konstruksiyasi zamonaviy shaklda qurilgani bilan undagi milliylik, o'zbek madaniyatining bir qismi yaqqol namoyon bo'lib turadi. Agar siz O'zbekistonga tashrif buyurib, Toshkent shahriga kelib butun poytaxtni bir qarashda ko'rmoqchi bo'lsangiz azim Toshkentning eng baland va jozibali minorasi sizni kutmoqda.

Telemisoradan shaharning deyarli barcha yerlarini kuzatishingiz, shaharning barcha nuqtasidan esa telemisoraning mag'rur salobatidan tun-u kun bahramand bo'lishingiz mumkin.

Tashkent television tower – the pearl of capital

There are many beautiful buildings with amazing and unusual construction in the world. Whether these structures are big or small, they have a unique design, amazing history and beauty that cannot be found in other buildings. Visitors and tourists remember these structures due to their

unique appearance after leaving a city. The Tashkent TV tower can easily take its place in the list of such world-famous buildings as the Oriental Pearl TV tower and the Central Radio & TV tower of Beijing with its magnificent appearance and history.

The Tashkent TV tower is located in Yunusabad district of the capital city. Its height is 375 meters. Guests are served by the "Koinot" restaurant, which has blue hall adapted for Uzbek national dishes, and red hall where European dishes are prepared for visitors. The peculiarity of these halls is that they rotate constantly. Also, guests who visit there will be able to enjoy the beauty of Tashkent city from a height of 104 meters.

Before the construction of the Tashkent TV tower, its project was carefully studied by experts and confirmed. Steel equipment was brought from Germany to Tashkent before the start of construction, which began in 1978 and ended in 1985. One of the basic aims of this magnificent building was development of TV and radio fields. On January 15, in the year of its completion, it was fully operational.

The Tashkent TV tower was created by "11-Balandqurilish" office builders. In the year when it was commissioned, the TV tower was the fourth tallest building in the world. At that time, it became a member of the International Federation of Great Towers of the World, along with structures in Toronto, Moscow, New York and Tokyo. In present, the Tashkent TV tower is the 12th tallest in the world and is used in the fields of telecommunications, tourism and hydrometeorology in Uzbekistan. The construction's cost was 14.5 million US dollars.

The famous and tall work of art, which has been standing for 37 years, is one of the visiting cards of Tashkent city. And its aesthetic design is made with good taste. Its stability is provided by three cone-shaped supports, each of them constitutes 93 meters high. The strong building was constructed considering the seismic conditions of the region and is able to withstand an earthquake of up to nine points.

The unique design of the building was developed by architects Nikolai Terziev-Tsarukov, Yuriy Semashko, as well as engineers Yevgeny Morozov and Mikhail Musheev. The tower's vestibule is decorated with Florentine and Roman style mosaic panels created by master Abdumalik Bukhorboyev. The Tashkent TV tower looks different during the day and night, which makes it unique and incomparable. It looks just like dancing stars in the dark night sky. This is because in 2018 the TV tower was decorated with colorful lights. Even though the Tashkent TV tower's construction is built in a modern way, the national spirit and part of Uzbek culture are clearly visible in it.

If you are visiting Uzbekistan and want to see the whole capital city at a glance, the tallest and most attractive tower of Tashkent is waiting for you. From the TV tower, you can observe almost all parts of the city, and you can enjoy the proud glory of the TV tower day and night from any point of the city.

Fotosuratchi Muzaffar Yusupov – O'ZBEKİSTONDAGI o'rganilmagan joylarning "zabt etuvchisi"

O'zbekistonda shunday go'zal joylar borki, ular haqida hatto mamlakat aholisining o'zi ham hech qachon eshitmagan. Bu hududlarning go'zalligini kashf etib, odamlarga yetkazayotganlardan biri o'zbek fotosuratchisi Muzaffar Yusupov. Bort jurnalimizga bergan intervusida u eng xavfli sayohati, O'zbekistonning o'rganilmagan, hamma tashrif buyurishi kerak bo'lgan joylari va o'zining jahonga mashhur kiyim brendi bilan hamkorligi haqida gapirib berdi.

- O'zbekiston sizni nimasi bilan ilhomlanadir?

- Men yurtimiz tabiati va madaniyatidan ilhom olaman. Bolaligimda suratga olishni yaxshi ko'rardim va bu ishni qilish jarayonida tog'larga ham qiziqishim uygondi. Aksarsoy sharsharasini borib ko'rganimdan so'ng, butun O'zbekiston bo'ylab sayohat qilishni boshladim. Menga safar qilish va noma'lum joylarga tashrif buyurish jarayoni yoqdi. O'zbekiston nafaqat shaharlardan, balki tog'li hududlar va qishloqlardan ham iborat ekanligini odamlarga ko'satishni xohladim.

- O'zbekistonda hamma tashrif buyurishi kerak bo'lgan, lekin e'tibordan chetda qolgan viloyatlar bormi?

- Yurtimizning janubiy viloyatlari deb o'layman, chunki ularni o'zim yaxshi ko'raman. Qashqadaryo va Surxondaryo baland tog'lari, go'zal tabiatni, boy madaniyati va xilma-xilligi bilan boshqa joylardan ajralib turadi. Yangi, o'rganilmagan joylarni ko'rishga ishtiyoqmand sayyoohlarni janubiy viloyatlarga tashrif buyurishlari kerak. Albatta, Farg'onada vodiysida Rishton kulolchiligi, Marg'ilonda ipak ishlab chiqarish jarayonini ko'rish, Andijonda haqiqiy devzira palovni tatib ko'rish, tog'larni tomosha qilish, odamlar bilan

muloqot qilish mumkin. Ammo u yerda mamlakat janubidagidek baland tog'lar va oddiy odamlar yashaydigan pasttekisliklar kabi joylarni topa olmaysiz Janubiy viloyatlar sayyoohlarni uchun haqiqiy xazinadir.

- Sizda unutilmas taassurot qoldirgan joyni eslaysizmi?

- Ha, bu Xo'ja Gur-gur ota cho'qqisi. Bu tog'ga siz bir tomondan ko'tarilishingiz mumkin, chunki boshqa qismida besh yuz metrlik jarlik bor. Agar siz jismomon tayyor bo'limasangiz, unda siz hech qachon cho'qqiga chiqolmaysiz. Unga boradigan yo'l juda ko'p energiya talab qiladi. Ammo cho'qqini zabt etganingizdan so'ng tog'dagi go'zal manzaraning guvohiga aylanasisz va butun charchog'ingiz tarqab ketadi. Asosiyasi, yarim yo'lda to'xtab qolmaslik va oldinga intilish.

- O'zbekistonni Nike reklamasining bir qismiga aylantirishga qanday erishdingiz?

- Dastlab video Qozog'istonda suratga olinishi rejalashtirilgan edi, lekin men O'zbekiston haqida katta taqdimot o'tkazdim va yakunida g'olib deb topildim. Men taklif qilgan hududlar rejissoryga yoqdi deb o'layman, shuning uchun u O'zbekistonni tanlashga qaror qildi. Shunday joylardan biri Quyosh instituti bo'ldi, bunday ilmiy muassasa dunyoda ikkitagi bo'lib, biri O'zbekistonda yana biri esa Fransiyada joylashgan.

Muzaffar Yusupovning maqsadi O'zbekistonning hech kim ko'rmagan hududlarini ochib berish. Mamlakatning go'zalligi shunchalik hayratlanarli va sirliki, u inson qalbini zavq-shavq bilan to'ldiradi. Hech qanday surat yoki video O'zbekistonning ruhi va ulug' vorligini boricha ko'sata olmaydi. Shuning uchun, narsalariningizni chamadoningizga joylang va Uzbekistan Airways bilan mamlakat bo'ylab sayohatga otlaning.

Photographer Muzaffar Yusupov – “conqueror” of unexplored places IN UZBEKISTAN

There are many picturesque places in Uzbekistan that even the locals themselves do not know about. Uzbek photographer Muzaffar Yusupov is one of those people who discover and capture the beauty of such places. He told “Uzbekistan Airways” magazine about his most dangerous trip, undiscovered places in Uzbekistan that everyone should visit and collaboration with the world-famous clothing brand.

- How does Uzbekistan inspire you?

- It inspires me with its diverse culture and nature. As a child, I was fond of photography and, at some point, I became very interested in mountains. After my first hike to a Aksarsay waterfall I started travelling all over Uzbekistan. I enjoyed the process and visiting locations, about which so little is known. And I wanted to share photos of these places so that people would look and understand that Uzbekistan consists not only of cities, but also of mountain areas and villages. Uzbekistan is worth exploring from start to finish.

- Are there any underrated regions in Uzbekistan that everyone should visit?

- I would say the southern regions of our country, because I like them myself. Kashkadarya and Surkhandarya have high mountains, breathtaking nature, rich culture and diversity. All tourists who want to discover new and unexplored places should definitely visit these southern regions. Certainly, in the Fergana valley you can visit Rishtan, witness silk production, in Andijan you can taste pilaf, see the mountains and

talk to people. But you will not find there what the south can offer you: highlands and lowlands where ordinary people live. The southern regions are a treasure trove for tourists.

- Do you remember a location that has left a lasting impression on you?

- Yes, it is the Khoja-Gur-Gur-Ata ridge. It is a mountain that can be climbed from one side as there is a five-hundred-meter precipice on the other side. If you are not physically prepared, there is no way you can reach the top. The way to it is very energy consuming. However, once you reach the top and see a breathtaking view from the mountain, your energy will be restored in no time. The most important part is not to stop halfway and keep going.

- How did you manage to make Uzbekistan a part of a Nike commercial?

- Initially, the commercial was planned to be shot in Kazakhstan, but I had a great presentation about Uzbekistan, which won in the end. I think the director liked the locations I suggested,

so she insisted on Uzbekistan. One of the locations was the Sun Institute, and there are only two in the world: one in Uzbekistan and the other in France.

Muzaffar Yusupov's aim is to show Uzbekistan as no one has ever seen it before. The beauty of this country is so amazing and mysterious that it can fill your soul with delight. No photos or videos can capture the spirit and magnificence of Uzbekistan, so hurry up, pack your bags and travel around the country with Uzbekistan Airways.
