Istanbul every day

2022 20 May

Istanbul is the most popular air travel destination for Uzbeks. Luxurious, stunning, charming, with a unique charm and attractiveness - this is not a complete list of epithets that the city of Istanbul deserves, having managed to visit the capital of four empires.

Today, Uzbekistan Airways operates regular flights to Istanbul from Tashkent, Samarkand, Fergana and Urgench. Flights are operated every day on modern Boeing and Airbus aircraft.

Flights to Istanbul will operate according to the following weekly schedule:

- from Fergana are performed three times a week - on Mondays, Wednesdays and Saturdays;
- from Samarkand three times a week - on Mondays, Wednesdays and Fridays;
- from Urgench twice - on Tuesdays and Fridays;
- flights from Tashkent to Istanbul are operated daily, which is due to the great demand among the passengers of this city.

It is worth noting that from tomorrow, May 15, 2022, Uzbekistan Airways will start flights to Istanbul from Bukhara, which will be operated twice a week - on Sundays and Thursdays.
