

Upgrade the class of service

2022 27 December

Uzbekistan Airways informs passengers that it is possible to upgrade the fares of refundable airline tickets from economy class to business class fares. The price of the operation is determined based on the type of fare.

Non-refundable economy class fares do not have this type of service.

Passengers can operate this type of service from the place where the airline ticket was purchased (Uzbekistan Airways Sales, airline agents, foreign offices of the airline company, ticket offices, www.uzairways.com official website and UzAirways mobile application).
