Latest news about baby born on board

2023 28 April

As we reported earlier about the birth of a child aboard the Boeing 787 Dreamliner, the baby was born 50 minutes before landing in Istanbul at an altitude of 12,200 meters. It became known that the mother was discharged from the hospital, the child remains in the clinic under the supervision of doctors, as he was born prematurely. The representative of Uzbekistan Airways JSC in Turkey met young parents, presented gifts from the airline and a bouquet of flowers, and provided transport. The boy was named Muhammad. Uzbekistan Airways wishes him good health and achievement of the same heights in life, on which he was lucky enough to be born.
