Removal of restrictions related to PCR testing and vaccination in Japan

2023 1 May

From April 29, 2023, passengers entering Japan will not be required to submit a PCR test and a certificate of complete vaccination.

As of today, the airline Uzbekistan Airways will operate daily regular flights on the route Tashkent-Tokyo-Tashkent, Narita airport.

Airline tickets for this and other routes can be purchased on the official website, through the UzAirways application, at the Uzbekistan Airways Sales branch, as well as from the airline’s agents.
