Uzbekistan Airways and Lufthansa Technik AG celebrate 30 years of cooperation

2023 13 September

Today, September 13, marks the 30th anniversary of fruitful cooperation between Uzbekistan Airways and Lufthansa Technik AG, one of the world leaders in the field of aircraft repair and maintenance. A large-scale event with the participation of representatives of both companies was organized on the territory of Uzbekistan Airways Technics as part of the celebration of the remarkable date,

Thirty years ago, specialists of Uzbekistan Airways Technics aircraft repair facility received training at Lufthansa Technik AG. A complete re-equipment of the repair division was started in order to master new equipment and obtain international certification. Mutually beneficial cooperation with the German company demonstrates excellent results today: UAT provides aircraft repair and maintenance services at the level of world standards. It is worth noting that Uzbekistan Airways Technics is one of the largest specialized enterprises in the CIS countries.

“We value the partnership between Uzbekistan Airways Technics and Lufthansa Technics. During our joint 30-year history we have achieved significant success and brought our partnership to a new level. But the perfection has no limit. That is why we will continue to develop our cooperation and strive for new horizons”, said Marat Latipov ***- Director of Uzbekistan Airways Technics LLC.***

Cooperation with the German company consisted not only in training specialists and repairing spare parts, but also in studying the market of aircraft repair services and creating a client base for Uzbekistan Airways Technics. Since 1997, UAT’s engineering staff has been independently providing maintenance services for each new aircraft added to the airline’s fleet.

“The importance of cooperation with Lufthansa Technik AG for Uzbekistan Airways is undeniable. And the fact that it has been going on for 30 years speaks volumes. I am very glad that our colleagues from Germany are sharing this joy with us today. I would like to emphasize that this cooperation is mutually beneficial”, ***said Shukhrat Khudaykulov, the Chairman of the Board of Uzbekistan Airways.***

About Uzbekistan Airways Technics:

Uzbekistan Airways Techinics LLC is a structural subdivision of Uzbekistan Airways JSC, which has more than 98 years of experience in the field of maintenance and repair of aircraft, engines and components. The modern UAT complex performs maintenance and repair of all current types of Airbus and Boeing aircraft.

The favorable geographical location of the aviation facility, adjacent to the territory of "Tashkent International Airport" named after Islam Karimov, allows for the reception, storage, maintenance and repair of aircraft of any class.
