Attention Departing Passengers

2024 16 May

We would like to remind you that registration for international flights begins 1 hour before departure, and for local flights, it begins 30 minutes before departure.

When purchasing an airline ticket, a passenger enters into a contract with the airline. According to the contract, the airline assumes the responsibility of delivering the passenger and their baggage to the designated destination. In return, the passenger is responsible for complying with the flight rules necessary for a safe journey, including registration.

We kindly ask passengers to arrive at the airports early to facilitate pre-flight procedures, which can be time-consuming. You can review the basic terms and conditions of the flight contract in the public offering section of the airline’s official website.
