Updated Economy Class Fare Structure — Even More Affordable Domestic Flights for Passengers

2025 16 May

To improve the accessibility of air travel for the citizens of the Republic of Uzbekistan, Uzbekistan Airways has introduced a new, simplified fare structure for economy class.

Instead of 10 fare levels, the system now includes 4 streamlined fare tiers, with reduced maximum fares, allowing us to:

• Make fare selection easier and more transparent

• Increase the number of seats available at minimum fares

• Provide affordable travel options for a greater number of passengers

Each of the four fare tiers offers a choice between refundable fares with checked baggage and non-refundable fares without baggage.

The minimum ticket price remains unchanged, while the steps between fare levels have been optimized to maintain the right balance between comfort, flexibility, and cost.

At the same time, the maximum fare level has been reduced to enhance mobility across Uzbekistan.

The new fare structure applies to the following routes:

Tashkent – Samarkand: from 249,000 UZS

Tashkent – Namangan: from 249,000 UZS

Tashkent – Fergana: from 249,000 UZS

Tashkent – Karshi: from 278,000 UZS

Tashkent – Termez: from 424,000 UZS

Tashkent – Bukhara: from 293,000 UZS

Tashkent – Urgench: from 512,000 UZS

Tashkent – Nukus: from 512,000 UZS

Bukhara – Urgench: from 336,000 UZS

We are committed to making air travel more convenient and accessible for all residents and visitors of our country.
