More baggage as a gift on Seoul flights – with UzAirPlus!

2025 9 June

We hereby inform you that on direct flights to/from Seoul, between June 9 and October 25, 2025, passengers are entitled to an additional free baggage allowance of one piece up to 15 kg, as a bonus.

This bonus applies to both refundable and non-refundable economy class fares, as well as business class fares. Please note that this bonus does not apply to infant (INF) passengers.

The increased baggage allowance is valid regardless of the ticket purchase date, as long as the travel period falls within the specified dates.

In case the bonus baggage exceeds 15 kg:

- For baggage weighing up to 32 kg, a surcharge of 50% of the standard excess baggage rate on the direct route to/from Seoul will apply;

- For baggage weighing up to 45 kg, a full (100%) standard excess baggage rate will be charged.

This additional baggage allowance does not apply to SPA fares or Code Share flights where Uzbekistan Airways is the marketing carrier, but does apply to Code Share flights where Uzbekistan Airways is the operating carrier.

The baggage allowance for connecting itineraries remains unchanged.

Please take this information into account and share it with all relevant parties.
