Uzbekistan Airways Employees Complete ISO Compliance Training

2025 8 July

From July 1 to 4, 2025, employees of Uzbekistan Airways JSC participated in a corporate training program at the CERT Academy International Training Center in Tashkent. The program was titled: “Manager / Internal Auditor of the Anti-Bribery Management System according to ISO 37001:2025.”

This course was part of the airline’s broader corporate initiative to establish an anti-bribery management system and prepare for international ISO 37001:2016 certification by the end of 2025.

Improving anti-corruption mechanisms and implementing an effective compliance system are among the strategic priorities of Uzbekistan Airways. This training continued the company’s commitment to upholding high standards of transparency and integrity across all business processes.

The course was attended by compliance and anti-corruption officers from the airline’s head office and subsidiaries:

- Uzbekistan Airways Technics LLC
- Uzbekistan Airways Sales LLC
- Ketring LLC

- Training Center LLC
- Helicopters LLC

In addition, specialists from key departments took part, including:

- Human Resources
- Legal Department
- Public Relations
- Finance
- Procurement and other units involved in corporate governance and control.

The training was delivered by Ildar Ineleev, an international auditor for TÜV International Certification (Germany) and CERT International (Slovakia), and a recognized expert in anti-bribery compliance. Holding a degree in law and certified under the IRCA (UK) program, Mr. Ineleev’s authoritative teaching style, practical approach, and deep expertise equipped participants with both theoretical knowledge and practical tools for implementing ISO 37001 within the airline's structure.

Uzbekistan Airways JSC will continue its dedicated efforts toward:

- Practical implementation of anti-bribery policy
- Building a unified compliance system
- Preparing for external ISO 37001:2016 certification

This seminar marked an important milestone in enhancing corporate culture, reducing corruption risks, and strengthening the airline’s international reputation.

At the end of the course, participants will undergo testing and receive internationally recognized certificates confirming their qualifications as ISO 37001:2025 managers and internal auditors.
