

Uzbekistan Airways Technics — A Key Participant in the 5th International MRO Central Asia Conference

2025 25 November

Specialists from Uzbekistan Airways and Uzbekistan Airways Technics took an active part in the 5th International MRO Central Asia Exhibition and Conference, which was held on November 25–26, 2025, in Tashkent.

The conference, dedicated to the Maintenance, Repair, and Overhaul (MRO) of aviation equipment, serves as the largest platform for exchanging expertise among specialists from Central Asia, Eurasia, the Caspian region, and the Caucasus.

UAT's participation visibly demonstrated the high level of competence of our technical center, facilitated discussions on implementing innovative solutions in the MRO sector, and strengthened direct international partnerships.

The organization of such a significant event and UAT's presence in Tashkent once again affirmed Uzbekistan's role as a regional hub, committed to adhering to the highest international standards in the fields of aviation safety and technical readiness.
