# Uzbekistan Airways employees visited the house-museum of Abdullah Kahhar

**2025 19 December**

As part of a cultural and educational initiative, Uzbekistan Airways employees visited the house-museum of the outstanding Uzbek writer Abdullah Kahhar, where they learned about his creative legacy and life.

During the tour, participants saw his personal library, archival photographs, and documents, and heard interesting stories from the writer's life that reflect his character and the era in which he lived and worked.

The courtyard of the house-museum, where a persimmon tree planted by Abdullah Kahhar himself has been preserved, made a particular impression.

The visit took place in a warm and cozy atmosphere, allowing participants to get a feel for the country's cultural heritage. Uzbekistan Airways will continue to support initiatives aimed at broadening the horizons of its employees.
