Uzbekistan Airways participates in a key global event in the field of aviation finance and leasing

2026 27 January

The Airline Economics Growth Frontiers conference is taking place in Dublin, bringing together industry leaders, airline representatives, lessors, and investors. Participants are discussing current market trends and sharing cutting-edge financial solutions.

The focus is on aircraft financing and leasing, sale-and-leaseback schemes, fleet management, ESG, and strategic trends in the aviation market.

Representatives of Uzbekistan Airways actively participate in business sessions and meetings, strengthening international cooperation and exploring new opportunities for the development of the company's financial strategies.

Participation in the conference allows Uzbekistan Airways not only to exchange experience with leading global experts, but also to demonstrate its achievements in fleet management and financial planning. The airline is strengthening its position in the international arena, expanding its network of partnerships, and forming a strategic vision for the further development of the aviation business.
