Uzbekistan Airways Technics – A Key Participant in the MRO Central Asia International Conference

2026 26 March

From March 25 to 26, one of the most significant events in the field of aviation engineering is taking place: the ato/comm MRO 2026 Central Asia Uzbekistan international exhibition and conference. Specialists from Uzbekistan Airways and its subsidiary, Uzbekistan Airways Technics (UAT), are actively participating in the event.

For Uzbekistan Airways Technics, participating in MRO 2026 is an excellent opportunity to clearly demonstrate the highest level of expertise and the strong potential of its technical center. As part of the business program, our specialists discuss the implementation of modern innovative solutions in the field of MRO, share unique expertise, and strengthen direct international cooperation with industry partners.
