Uzbekistan Airways is moving to a new terminal at Frankfurt Airport

2026 4 May

Starting May 7, the airline’s flights will operate to and from Terminal 3, which opened after 11 years of construction. The new terminal is designed to handle up to 19 million passengers a year and offers a high level of comfort for travelers.

We ask passengers to take this change into account when planning their trip and to check the departure and arrival terminal information in advance.
