Uzbekistan Airways Launches Apple Pay and Google Pay Accommodations

2026 19 May

Striving for flawless service at every stage of the journey remains the ultimate priority for the national airline, Uzbekistan Airways. Today, we are proud to become the first in Uzbekistan to take another vital step toward advanced digital technologies, enabling our passengers to complete transactions using the global payment services **Apple Pay** and **Google Pay.**

The integration of these highly popular payment systems into the airline's official website and mobile application completely transforms the user experience. Passengers no longer need to spend time locating a bank card and manually entering details to arrange their travel. A single click is all it takes for the system to process the transaction instantly, ensuring uncompromising financial security through cutting-edge tokenization and encryption technologies.

Your time is a luxury that we deeply value and one that can never be recovered. This is why we have made flight booking fast, convenient, and seamless – allowing you to dedicate your precious moments entirely to new experiences and enjoy your flight with Uzbekistan Airways!
