Attention passengers traveling to Thailand!

2026 25 June

Are you planning a journey to Thailand? Useful information for a comfortable entry into the country

Thailand traditionally remains one of the most popular and beloved destinations for a vacation. In order for your journey to commence exclusively with pleasant impressions, and for the passing of passport control to be rapid and unobstructed, Uzbekistan Airways reminds you regarding the basic rules of entry into the Kingdom.

In accordance with the requirements of the immigration authorities of Thailand, prior to departure, it is necessary for passengers to ensure the availability of the following documents and funds:

1. A return flight ticket or a ticket to a third country. Immigration services may verify the authenticity of the reservation; therefore, we recommend preparing the itinerary receipt well in advance.

2. Confirmation of accommodation. You must possess a confirmed and previously paid reservation of a hotel or of an alternative place of accommodation for the entire period of your vacation.

3. Financial provision. For a stay within the country, it is necessary to possess funds based on the calculation of 600 United States dollars for one person or 1,200 United States dollars for a family.

4. Documents for the issuance of a visa. If you require a visa upon arrival (Visa on Arrival), please prepare the package of necessary documents well in advance, and also ensure the availability of funds for the payment of the visa fee.

Compliance with these straightforward rules guarantees you a calm commencement of your vacation and will assist in avoiding possible delays at the border.

We thank you for the selection of our airline. We wish you a comfortable flight and unforgettable impressions from your vacation in Thailand!
