

The energy of unity and of sport: the employees of Uzbekistan Airways took part within the International marathon within Tashkent

2026 8 September

Autumn within the capital was marked by a grandiose sporting holiday. Within the very heart of the city, upon the territory of the business center of Tashkent City, a large-scale International marathon took place, timed to a significant date — the 35 anniversary of the Independence of the Republic of Uzbekistan. This vibrant event united thousands of people: professional athletes, amateurs of a healthy lifestyle, and everyone who chooses active movement forward.

The team of the national air carrier traditionally did not remain aside from such a significant event. 40 employees represented the Joint Stock Company of "Uzbekistan Airways" and the structural subdivisions of the company upon the running track. Having changed the usual uniform to a sports equipment, our colleagues went out to the start in order to represent the airline with honor. They demonstrated not merely an excellent physical shape, but also true cohesion, a team spirit, and an unwavering striving toward new achievements.

The marathon took place at the highest level, having presented a colossal charge of energy to the participants and to the spectators. Sincere smiles, the atmosphere of a healthy competition, and the ardent support of the fans made this day truly unforgettable. Every overcome kilometer of the distance was given easier thanks to the sense of the shoulder — to that very unity which always distinguished the workers of the aviation.

For Uzbekistan Airways, the support of such initiatives is much more than simply a participation within a sporting competition. This is an integral part of our corporate culture. We are deeply convinced that similar events help to popularize a healthy lifestyle, to relieve emotional tension, and to form a strong, friendly team, united by common goals and values.

We are sincerely proud of every one of the 40 participants of the run and from the entire soul congratulate the colleagues with a brilliant result! You proved by a personal example that movement is life, and our main strength consists within unity. We wish you not to stop at the achieved results, to bravely walk toward new victories, vibrant starts, and the conquest of the most ambitious sporting peaks!

We confidently move forward upon the earth and strive toward new altitudes within the sky!
