

We open Uzbekistan for the entire Southeast Asia!

2026 5 September

From the four to the six of September, Uzbekistan Airways is located within the very center of the large-scale tourist exhibition of the MATTA Fair within Kuala Lumpur!

The atmosphere is incredible: more than 45 thousand visitors only during the first day and a colossal interest towards our country. Upon the joint stand with the Committee of Tourism of the Republic of Uzbekistan, life is in full swing — we actively acquaint the tour operators, the business representatives, and the travelers with the unique atmosphere of our country. It is significant that for the airline this is the 16th foreign tourist event of a similar kind during this year.

And the most important thing: we already operate regular direct flights from Tashkent to Kuala Lumpur. And in order that the planning of journeys to Malaysia becomes even more convenient, from the end of October we increase the frequency of flights up to four times a week!

Become inspired by the new routes and discover the world together with Uzbekistan Airways!
