

We build new aviation bridges and expand the horizons!

2026 6 September

The business program of Uzbekistan Airways at the Malaysian Association of Tour and Travel Agents Fair within Kuala Lumpur is in full swing! Our team conducted a series of meetings with the leading international ticketing and tourist agencies. Our common goal is to powerfully strengthen the presence of the national air carrier of Uzbekistan upon the markets of Southeast Asia and of the Asia-Pacific region.

A meeting with our partners from Malaysia Airlines took place warmly and productively. During the course of the dialogue, we discussed the further development of the cooperation and the opening of new routes within the framework of the commercial agreements.

Ahead are many ambitious projects in order to make the journeys across the entire world even more convenient for our passengers.
