

Uzbekistan Airways upon the Tourism Expo Japan of the year 2026!

2026 28 September

From the 24 until the 27 of September, Uzbekistan Airways, within the composition of the National stand of Uzbekistan, took part within one of the largest tourist exhibitions of Asia – the Tourism Expo Japan. The magnificent platform successfully united the strategic initiatives of the airline within the segments of Business to Business and of Business to Consumer.

Within the framework of the business program, we conducted productive meetings with the tour operators of the region of Asia and of the Pacific Ocean, having discussed the launch of new joint tourist products. At the exact same time, the specialists of the airline actively communicated with the visitors of the exhibition – the future passengers of the national carrier. A direct dialogue allowed to acquaint the travelers with the route network, with the exceptional comfort upon the board, and to inspire these guests toward the discovery of the rich heritage of Central Asia.

We continue to make Uzbekistan closer for the entire world, offering an invariable reliability and the legendary Uzbek hospitality upon every stage of the magnificent journey!
