

The national vibe within the Training Center of Uzbekistan Airways!

2026 22 October

This Thursday, our colleagues decided to spend in a special manner and filled the working routine with vibrant colors, arriving to work in beautiful traditional outfits.

Atlas, adras, and the elements of the national style added much warmth and a unique Uzbek character to the customary atmosphere. It turned out incredibly stylish and very soulful! Such initiatives not merely please the eye, but also excellently unite the team, reminding about the beauty and the wealth of our culture.
