Sport, health, and team spirit: Uzbekistan Airways at the International Samarkand Marathon!

2026 9 November

On the seventh and the eighth of November within the historical center of our country – the city of Samarkand – one of the most anticipated events of the year took place: the International Samarkand Marathon. This large-scale sporting event, organized by the charitable organization under the Fund for the Development of Culture and Art under the Administration of the President of the Republic of Uzbekistan, united approximately 15 000 participants.

20 employees of Uzbekistan Airways successfully performed upon various running distances, demonstrating excellent physical preparation, purposefulness, and incredible cohesion. The support of a healthy lifestyle and the development of corporate sport are an integral part of the culture of our airline.

Each of our colleagues successfully overcame the chosen distance and replenished the collection with a memorable medal of the marathon. We are sincerely proud of our colleagues, thank them for the active life position, and wish new victories – both upon the running tracks and within the professional activity!
