Important Information for Passengers Planning Flights to the U.S.

2026 17 November

Please be advised that, in accordance with requirements from the U.S. Transportation Security Administration (TSA) and the U.S. Centers for Disease Control and Prevention (CDC) aimed at preventing the spread of the Ebola virus, additional regulations for international flights will take effect on November 16, 2026. These measures will remain in effect until February 16, 2027, and apply to passengers traveling to the United States, transiting through U.S. territory, and departing from the United States.

According to the established rules, before boarding a flight to the United States, each passenger must provide mandatory confirmation (Attestation) that they have not been in the Democratic Republic of the Congo (DRC) within 21 days prior to departure. This attestation will be verified at the check-in counters and during document checks prior to boarding.

Please take these requirements into account when planning your trip and arriv'e at the airport well in advance to ensure a smooth completion of all pre-flight procedures. Thank you for your understanding!
