Review of “Uzbekistan Airways” JSC domestic flights

2021 8 May

After easing quarantine measures, “Uzbekistan Airways” JSC began to restore flights to domestic destinations. Moreover, processes were carried out to increase the frequency of flights and open new intra-republican routes.

Traditionally, the most popular destinations are flights from Tashkent to Urgench and from Tashkent to Nukus. Today, the cost of air tickets from Tashkent to Urgench and from Tashkent to Nukus starts from 417,000 soums. At the same time, flights on the above routes are performed on a daily basis. An increase in the number of flights on the Tashkent - Urgench - Tashkent route is considered in the future.

“Uzbekistan Airways” provides regular flights from Tashkent to Termez, Bukhara, Samarkand, and from May 14, flights from Tashkent to Navoi are resumed. The cost of air tickets on these routes is:

- Tashkent – Termez – from 341000 soums. Flights are operated on Mondays, Thursdays and Saturdays.
- Tashkent – Bukhara - from 215,000 soums. Flights are operated on Wednesdays, Saturdays and Sundays.
- Tashkent – Navoi - from 215,000 soums. Flights operate on Tuesdays and Fridays
- Tashkent – Samarkand - from 114,000 soums, flights are operated only on Saturdays. At the same time, the airline's schedule includes other flights from Samarkand to the regions of the Republic at fairly attractive prices.

Regular flights are carried out to the Fergana Valley, on the routes Tashkent - Fergana, Tashkent - Namangan. Air traffic on the Tashkent-Andijan line, which had been suspended several years ago, was also restored. The cost of air tickets to the cities of the Fergana Valley is the same for each city - the cost of an air ticket from Tashkent to Fergana, Namangan and Andijan cost from 127,000 soums.

The airline introduced a new flight connecting Termez with Fergana. At the same time, the schedule of this route is made as comfortable as possible for passengers of both cities of the Republic - the flight from Termez to Fergana is performed on Mondays , and from Fergana to Termez - on Thursdays. The cost is the same for both sections of the route - from 316,000 soums.

Separately, it is necessary to note the creation of a second hub in Samarkand. Now from Samarkand on a regular basis, in addition to a regular flight to Tashkent, there are intra-republican flights to three cities - Fergana, Namangan and Urgench. The cost of air tickets is extremely low, the same for all three directions and starts from 190,000 soums, which contributes to an increase in the level of population mobility and the development of domestic tourism in the country. Flights are operated on the following days:

- From Samarkand to Namangan - on Wednesdays and Saturdays.
- From Samarkand to Fergana - on Mondays, Tuesdays, Fridays and Sundays.
- From Samarkand to Urgench - on Mondays, Wednesdays, Fridays and Sundays.

Moreover, between the cities of the Fergana Valley and Urgench there are convenient connections through the airport of the city of Samarkand, for the opportunity to travel in transit within the country. Also, flights to Samarkand and back are conveniently docked with flights from the cities of the Republic to Istanbul. In the future, after the resumption of regular flights with cities of the Russian Federation, convenient connections with flights to Moscow and St. Petersburg will be introduced.

We remind you that when buying an air ticket through the official website of Uzbekistan Airways, there is a 3% discount!
