The winners of the competition have been determined

2021 4 November

Recently, in the hall of “Uzbekistan Airways” JSC, the first of the three stages of a review competition among the youth of departments, offices, branches, services, divisions of the airline on the topic “Innovative ideas in the field of air transport” took place.

The event was organized with the aim of identifying the most promising innovations and technologies, using modern methods and creating conditions for disclosing the realization of the creative abilities and potential of Uzbekistan airways youth.

According to the conditions of the review competition, the participants demonstrated their projects: a business card, an "Innovative Idea" in the form of a presentation (including video materials, layouts, etc.). Participants' projects were evaluated on a 100-point scale according to such criteria as the technical solution of the project, economic efficiency, implementation and production.

As a result of the decision of the jury members of the review competition, 1st place was taken by Aziz Zaripov, specialist of the 2nd category of the DCS group of the Ground Handling Department, who presented a project on the topic: "Economic justification for the introduction of electronic journals and tablets", the second place was awarded to Abdulaziz Mavlyanov, engineer groups for analysis, statistics and development of promising procurement methods, implementation of IT and ERP technologies of the Procurement Department, who demonstrated the project on the topic “Implementation of the concept of the customer journey in Uzbekistan airways” JSC, and finally the third place was taken by Nargiza Kattakulova, specialist of the 2nd category of the Ground Handling Department, who presented the project “Implementation of the system for the comfortable transportation of sick / lying passengers”.

All the winners of the review competition were presented with memorable gifts from the trade union committee of “Uzbekistan Airways” JSC. The second stage of this

competition is planned to be held in the middle of November.
