Century history of the leading airline in Central Asia

2021 24 November

In 2021, “Uzbekistan Airways Technics” LLC celebrated its 97th anniversary. The history of “Uzbekistan Airways Technics” begins in November 1924, when the first aircraft repair shops were opened under the “Dobrolet” society.

In 1937, on the basis of this society, an aircraft repair plant No. 243 of Civil Aviation was created. In 2002, the plant was transformed into the “Uzbekistan Airways Technics” aircraft repair company. “Uzbekistan Airways Technics” is one of the leading enterprises in Central Asia, where they carry out maintenance and repair of aircraft, engines and their components.

Let's congratulate “Uzbekistan Airways Technics” on its anniversary!
